3. This campaign cannot be combined with any other referrer agreement. An IB may decide to opt out of the IB Deposit Bonus Campaign compensation plan at any time, however, changes will only take affect in the beginning of the following month.
4. To earn commission from this campaign, IB needs to reach the minimum of 5000 USD of monthly net deposit.
5. The amount of the commission depends on how much the net deposit is. Below is the tier:

20001-30000	12%
30001-40000	13%
40001-50000	14%

6. IB will receive the full commission once the lot requirement is completed, which is 5% of the commission received.

7. Net deposit and volume are calculated on a monthly basis.
8. If IB does not achieve the required number of lots, they will instead receive partial commission relative to their target percentage.
9. If IB does not achieve the minimum net deposit target, or if the amount of the net deposit in a month is less than 5000 USD, the IB will not receive any commission.

12. Commission is given to IB within the first week of the next month.
13. Commission is added to the IB wallet and can be used for trading or be withdrawn.
14. If there are sub IBs, the volume and deposit requirement are applicable to the entire group. Hence, the net deposit and lot accumulated are calculated for the entire group.
15. MIBs have the flexibility to choose/switch the business model (whether rebate or net deposit), and to distribute and allocate the commissions received to their SIBs.
